Hi, Kristen. I understand discussions/presentations of that sort are on hold until we get squared away with the larger process. I suggest when we get together to talk about the data and technical issues that we also talk about how you will all be sharing information - format, content, review, frequency, etc.

Vr,

Anthony Greenwater, Director

Tribal and International Affairs

US EPA, Region 5

77 W Jackson Blvd., Chicago Illinois 60604

Subject: Tower Standard S2C2 presentation- today?

Good Morning Mr. Greenwater,

Could you let me know if a presentation with S2C2 is planned for today. I have not received any response from Sherry.

Kristen

Subject: RE: Tower Standard S2C2 presentation

Good Morning Sherry,

Our Management and Tribal Council has agreed to a technical coordination step put forward by the Office of Tribal and International Affairs Office. We are awaiting the next steps for this effort to proceed.

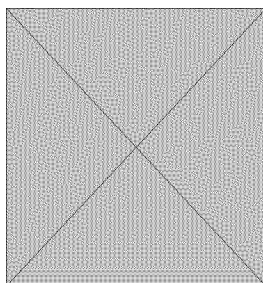

In advance of any presentation, we anticipate materials and files for review and preparation. If there are updated model files, please provide them. Also, please provide EPA contractor deliverables and reports.

Sincerely,

Kristen Hanson

Environmental Response Program Coordinator/ Environmental Specialist

Lac du Flambeau Tribal Natural Resource Department

Subject: Tower Standard S2C2 presentation

Hello Kristin and Dee,

We are hoping to schedule a presentation with you and EPA to see the S2C2 presentation the week of January 30, 2017.

This would be a great opportunity to start up our discussions again by looking at the data and having a visual depiction of what is occurring at Tower Standard.

We always start looking at schedules for this type of presentation by looking to see what dates the contractor is available. Bristol and S2C2 are available on January 30th. Could this date work for you two?

Sherry
